

March 25, 2020

Pelican River Watershed District Board of Managers
c/o Tera Guetter, Administrator
211 Holmes St. West #201
Detroit Lakes, MN 56501

Dear Managers:

The Minnesota Board of Water and Soil Resources has approved the Pelican River Watershed District's revised watershed management plan at its regular meeting held on March 25, 2020. Attached to this letter is the signed Board Order that documents the official approval of the plan revision and indicates it meets all relevant requirements of applicable state statutes, policies, and rules.

Once affirmative action is taken by the board in accordance with M.S. 103D.405 the revised watershed management plan will be prescribed to the Pelican River Watershed District and effective for a period of ten years to March 25, 2030.

The Pelican River Watershed District is to be commended for developing a plan with clear water management goals, actions, and objectives; soliciting a vast array of local, state, and federal partners, and also the willingness of staff to accept comments from partners and incorporate them where possible to ensure the plan carries local support as items are implemented. The BWSR thanks the Pelican River Watershed District for the opportunity to be a part of the planning process and looks forward to working you into the future.

Sincerely,

Gerald Van Amburg, Chair
Minnesota Board of Water and Soil Resources
